2023 ANNUAL FINANCIAL REPORT

Friends and Supporters,

We are proud to report that development continued at the school programs and agricultural sustainability projects in 2023, thanks to your support.

The year 2023 was a difficult year in Tanzania due to high inflation and severe drought. Crop production was restricted and “finding water” became difficult for many people due to the drought.

Educational quality continued to be in the top 15% across the nation of Tanzania based on national standardized testing, which shows the dedication of the teachers, staff, orphan students, and to those who support Orphans Africa. Thank you for making this possible.

Our Mission is to “Educate orphans in Africa”. School goes year-round except for breaks, just like in other nations around the world. That means the orphans are being educated continually throughout the year which will totally change the trajectory of their lives. Expenses go on year-round, also, and that is why your support is so critical to their success. Orphans continued to receive food, medical insurance, dormitory housing, school supplies, and clean water. All of these things contribute to making Orphans Africa successful in its mission. Thank you!

Revenues increased from \$155,166 in 2022 to \$240,115.22 in 2023 with an improved in-person annual Benefit and increased donations from supporters. The hard-working Board of Directors took over some paid administrative functions resulting in only \$353.14 in payroll expenses for 2023! All of the efforts by the Board of Directors and our supporters resulted in 98.6% of 2023 collected funds going to the programs in Africa! The remaining 1.4% was administrative expense. Well done!

The all-volunteer Board of Directors **thank you** for your continued financial support and dedication. We are pleased that you have chosen Orphans Africa as an avenue to make the world a better place.

Sincerely,

Orphans Africa Board of Directors, 2023
