Dear Friends of Orphans Africa,

Orphans Africa believes it can best educate orphans through a combination of various innovative, yet practical strategies:

- Construct and operate self-sustainable schools for orphans that focus on educational excellence and leadership;
- Provide safe residences where orphans can live and thrive;
- Educate orphans through providing tuition fees and essential supplies;
- Provide teacher training;
- Provide preventive health education;
- Collaborate with local, grassroots NGOs;
- Collaborate with international nonprofit charities;
- Foster strong relationships with local communities and government.

In 2013, we continued to deliver excellent education to both orphans and paying students at our schools. Highlighted here are a few of our accomplishments during the year:
